Opis

Smed Engineering AS is a successor of AS Langland & Schei, which has a tradition of more than 100 years within the industry, and has full ownership of Smed Engineering d.o.o. (BiH). The company provides engineering services and supplies manufactured steel and metal products which are transported from the Balkans to Scandinavia. Smed also offers consulting services for other companies wishing to establish themselves in the Balkans, as well as design services and manufacturing for heavy industries, including the oil industry.
