Opis

A German web development company, specialized in custom Wordpress and Webdevelopment of integrated business solutions for clients, is offering high-quality software development and related services through an outsourcing agreement. During years of experience in various technologies and domains for clients in different industries, the company has developed a flexible team of experts, ready to answer to any challenge. As a result of working with their clients, the company has developed a wide range of their own products, which contained quality solutions for business problems that they have encountered in practice.

Thanks to the many development projects that the team of the company has worked on, along with technical knowledge, they possess a genuine domain knowledge in the following verticals:

- Finance and accounting
- Insurance
- Banking
- Public sector
- Healthcare
- Telecommunications
- Transport
- Tourism
- Trade
